TO: Minerals File

FROM: Tom Munson, Reclamation Specialist 

RE: Site Inspection, Dave Penney, Banded Opal Mine, S/001/040, Beaver County, Utah

Date of Inspection: May 7, 2001  
Time of Inspection: 6:30 p.m.  
Conditions: Sunny, pleasant  
Participants: Tom Munson, DOGM

Purpose of Inspection: To inspect site at operator's request to close the file.

While in the immediate vicinity of other site inspections, I stopped at this site to see if the site could be released, per Mr. Penney's request to close this project. The disturbance at the site is old disturbance. I could not determine what Mr. Penney did, verses what other operators had done at the site. Vegetation is growing at the site and is well established. Photos were taken of the area. I recommend that this project file be closed as requested.
